HTML HOMEWORK

STUDENT INFO

NAME: TELORE GANESH BHASKAR
CLASS: F.Y.B.B.A(C.A)
ROLL NO: 215174
GUIDING TEACHER: PROF.LANDE.R.D

ASSIGNMENT 1

Q.Generate html code to design a webpage frame as follows.

SOLUTION:-

```html
<html>

<title>first layout</title>

<frameset>

<frameset rows="*,*,60%,*"  framespacing=10 border=10>

<frame src="first.html" marginwidth="20" frameborder="1">

<frame src="second.html" marginwidth="20" frameborder="1">

<frameset cols="*,50%,*"  framespacing=10 border=10>

<frame src="third.html" marginwidth="20" frameborder="1">

<frame src="fourth.html" marginwidth="20" frameborder="1">

<frame src="fifth.html" marginwidth="20" frameborder="1">

</frameset>

<frame src="sixth.html" marginwidth="20" frameborder="1">

</frameset>

</html>
```

OUTPUT:

ASSIGNMENT 2

Q. Generate html code to design a webpage frame as follows.
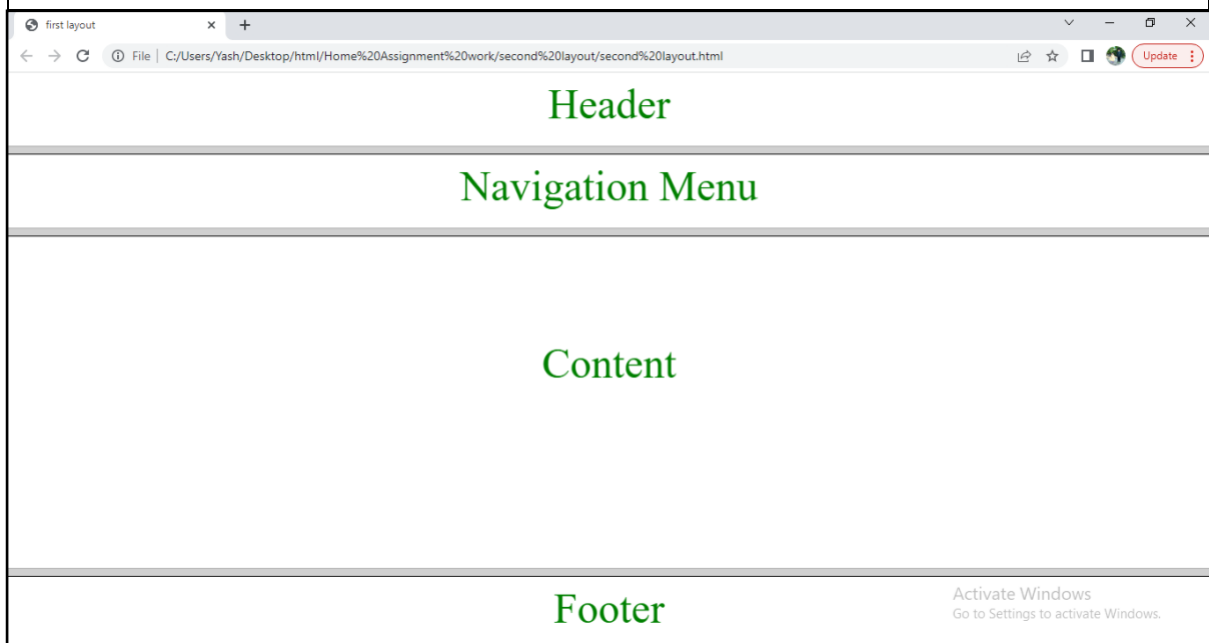

SOLUTION:-

```
<html>

<title>first layout</title>

<frameset>

<frameset rows="*,*,60%,*"  framespacing=10 border=10>

<frame src="first.html" marginwidth="20" frameborder="1">

<frame src="second.html" marginwidth="20" frameborder="1">

<frame src="third.html" marginwidth="20" frameborder="1">

<frame src="fourth.html" marginwidth="20" frameborder="1">

</frameset>

</html>
```

OUTPUT:

ASSIGNMENT 3

Q. Generate html code to design a webpage frame as follows.

SOLUTION:-

```html
<html>

<title>first layout</title>

<frameset>

<frameset rows="*,*,60%,*"  framespacing=10 border=30>

<frame src="first.html" marginwidth="20" frameborder="1">

<frame src="second.html" marginwidth="20" frameborder="1">

<frameset cols="*,50%,*"  framespacing=10 border=30>

<frame src="third.html" marginwidth="20" frameborder="1">

<frame src="fourth.html" marginwidth="20" frameborder="1">

<frame src="fifth.html" marginwidth="20" frameborder="1">

</frameset>

<frame src="sixth.html" marginwidth="20" frameborder="1">

</frameset>

</html>
```
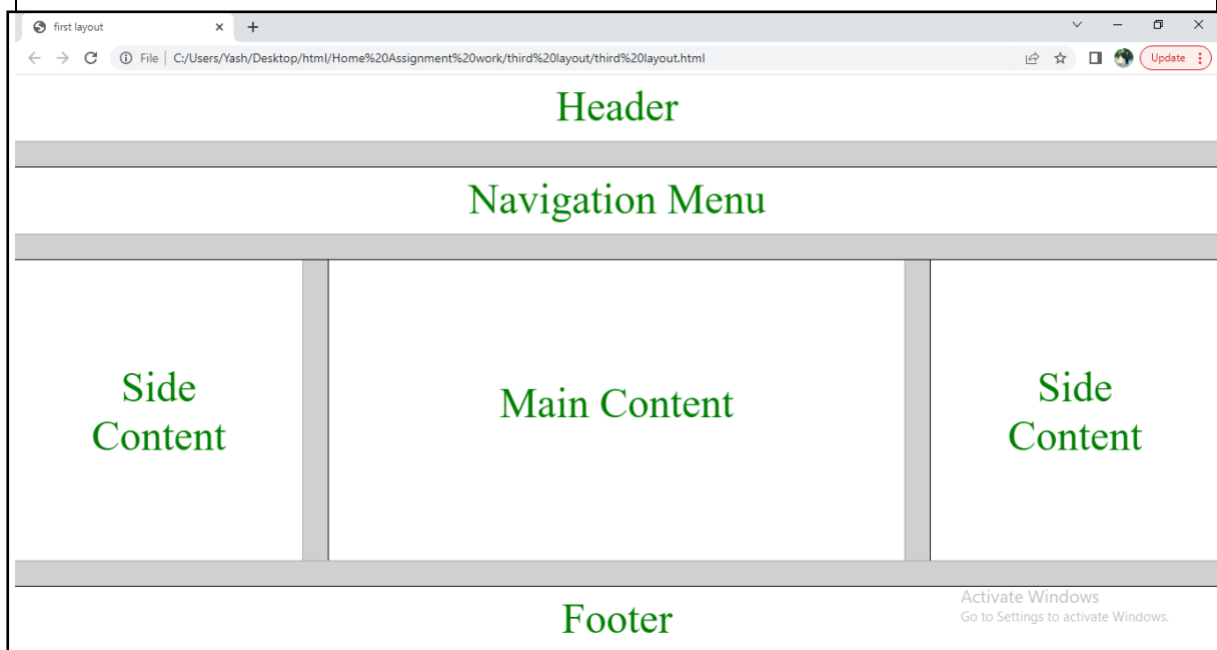

OUTPUT:

ASSIGNMENT 4

Q. Generate html code to design a webpage frame as follows.

SOLUTION:-

```html
<html>

<head></head>

<frameset rows="*,50%,*">

  <frame src="first.html" name="first">

<frameset cols="25%,75%">

  <frame src="second.html" name="second">

  <frame src="third.html" name="third">

</frameset>

<frame src="fourth.html" name="fourth">

</frameset>

</html>
```
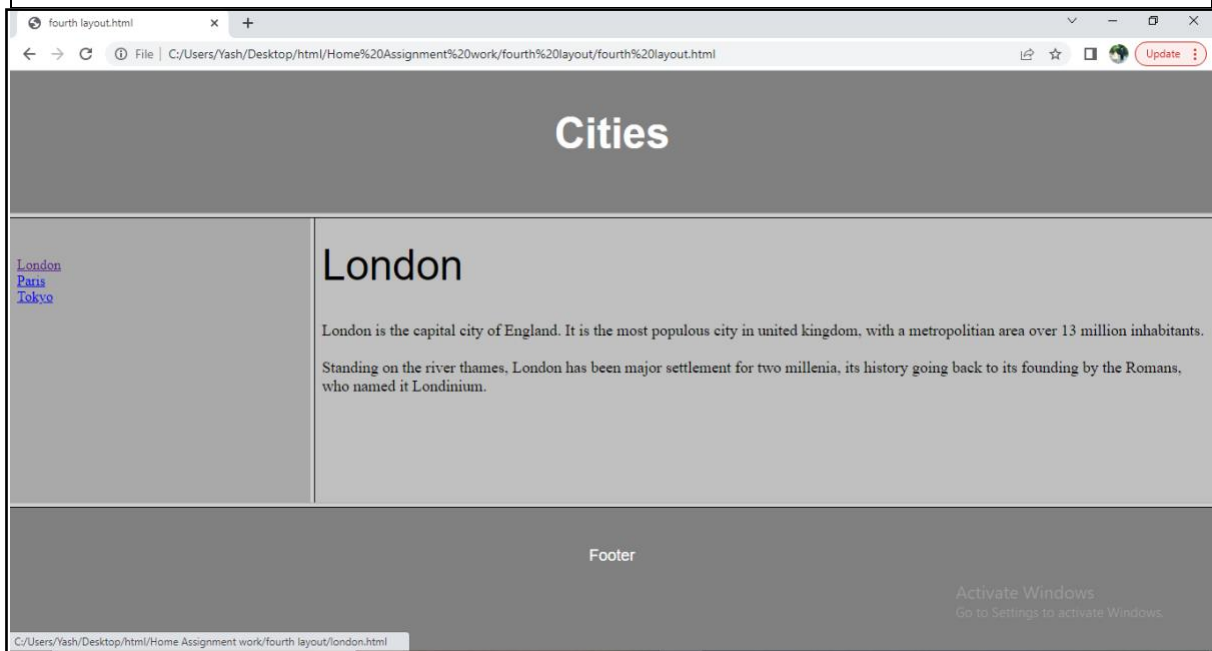

OUTPUT:

ASSIGNMENT 5

Q. Generate html code to design a webpage frame as follows.

SOLUTION:-

```html
<html>

<title>first layout</title>

<frameset>

<frameset rows="*,*,60%,*"  framespacing=10 border=10>

<frame src="first.html" marginwidth="20" frameborder="1">

<frame src="second.html" marginwidth="20" frameborder="1">

<frameset cols="*,80%,"  framespacing=10 border=10>

<frame src="third.html" marginwidth="20" frameborder="1">

<frame src="fourth.html" marginwidth="20" frameborder="1">

</frameset>

<frame src="fifth.html" marginwidth="20" frameborder="1">

</frameset>

</html>
```
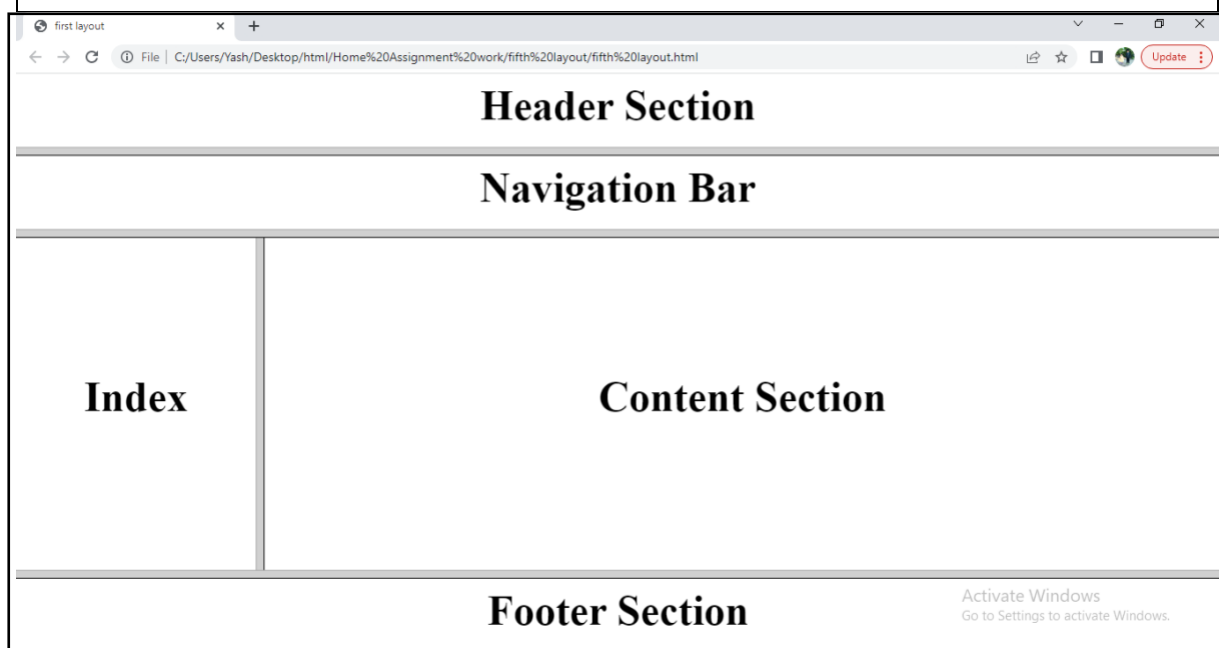

OUTPUT:

ASSIGNMENT 6

Q. Generate html code to design a webpage frame as follows.

SOLUTION:-

```
<html>

<frameset>

<frameset rows="10%,*,10%"border="20">

<frame src="first.html" name="first" frameborder=0 scrolling="no">

<frameset cols="25%,*,25%" border="10">

<frame src="second.html" name="third" frameborder=0 scrolling="no">

<frame src="third.html" name="fourth" frameborder=0 scrolling="no">

<frame src="fourth.html" name="fifth" frameborder=0 scrolling="no">

</frameset>

<frame src="fifth.html" name="second" frameborder=0 scrolling="no">

<frame src="sixth.html" name="sixth" frameborder=0 scrolling="no">

</frameset>

</html>
```

OUTPUT:
